HalSail FAQ

How much does HalSail cost?

HalSail is not free. The cost of developing the app and running our server has to be recouped somehow.

The cost of using HalSail is £100.00 (pounds sterling) per year, or for those clubs in the European Union €120.00, or for those clubs in the US $130.00.

There is a free introductory period of 45 days, during which you can use the full capabilities of the app, except that you cannot download a backup file of your data or upload to the archive service. You will be limited to a maximum of 200 individual results during the introductory period.

At the end of your free introductory period you will be asked to pay a subscription. You can pay online with a credit or debit card via Stripe, our online payment partner, or we can send you an invoice to pay by bank transfer or cheque.

If you pay for a subscription, your data will be kept and will be available as long as you maintain your payments. If you subsequently let your subscription lapse, your data will be kept for 180 days from the date of lapse.

If you do not pay for a subscription at the end of your free introductory period, your account will be removed and your data deleted after 30 days.
