HalSail FAQ

Who are 'Supporters'?

Supporters are people who did not take part in the racing to whom you want to send emails with links to results.

You normally send result emails to competitors . These emails go to the addresses found in the Boat Register. But there may be other people - such as journalists, coaches, or parents - who you wish to keep informed of any new results. If you put them in your list of supporters, they will automatically be copied into any emails that go to competitors.
