HalSail FAQ

How do I update boats to new standard handicap values?

You can update the handicaps of boats that are in classes that use any of the following schemes: RYA Portsmouth Yardstick, IRC, National Handicap for Cruisers (NHC), Small Catamaran schemes or Australian Sailing Yardsticks.

The procedure to update standard handicaps is as follows:

- Go to Boats > Tools > Standard handicaps. Click one of the classes buttons to see a table of boats with a certain type of handicap. The table highlights the ones whose handicap disagrees with the standard value.
